President Joe Biden  
The White House  
1600 Pennsylvania Ave.  
Washington, DC 20500

RE: IMMEDIATE MORATORIUM ON WILD HORSE AND BURRO GATHERS AND REMOVALS

Dear President Biden:

When Congress passed the Wild Free-Roaming Horses and Burros Act (WFRHBA) of 1971 fifty years ago, it made the following findings:

“Congress finds and declares that wild free-roaming horses and burros are living symbols of the historic and pioneer spirit of the West; that they contribute to the diversity of life forms within the Nation and enrich the lives of the American people; and that these horses and burros are fast disappearing from the American scene. It is the policy of Congress that wild free-roaming horses and burros shall be protected from capture, branding, harassment, or death; and to accomplish this they are to be considered in the area where presently found, as an integral part of the natural system of the public lands.”

Ignoring its statutory mandate and the wishes of the vast majority of the American people, the Bureau of Land Management has embarked on a campaign to use helicopter roundups to gather and remove thousands of our wild horses and burros from public lands. In doing so, the agency is acceding to the wishes of private livestock producers and resource extraction industries, who have made clear they want all the wild horses and burros gone forever from federal public lands. For its part, the U.S. Forest Service, operating under the Department of Agriculture, has taken a similarly untenable approach to wild herds on Wild Horse Territories (WHTs) managed by the USFS.

We write to you now to ask for an immediate moratorium by executive order on further non-emergency gathers and removals of wild horses and burros until the BLM conducts a comprehensive review of its wild horse and burro program and the impacts of private livestock grazing. The BLM could seek an exception to the moratorium in the event of emergency conditions that pose an imminent, compelling, and verifiable threat to the health and safety of wild horses and burros; or where wild equids pose an immediate threat to species listed under the Endangered Species Act, or species that are vulnerable and worthy of listing under the ESA. We also seek an executive order permanently barring the agency from conducting any permanent sterilization procedures on wild equids. These same measures should also be undertaken by the USFS with respect to wild herds managed on our national forest lands.

We believe the BLM has largely abandoned its statutory mandate to manage these cherished national icons in a manner that is humane and balanced. Instead, the BLM continues to weave a false narrative that blames roughly 100,000 wild horses and burros for degrading public rangelands, ignoring the cumulative impacts of millions of privately owned cattle and sheep.

For these reasons, a coalition of over 70 advocacy groups dedicated to public lands management, wilderness conservation, and the humane treatment of animals, as well as over 60 private individuals, have recently issued a letter to Secretary of Interior Deb Haaland urging her, among other things, to eliminate livestock grazing on all Herd Management Areas established for wild horses and burros and order a study on the ecological impacts of livestock grazing to serve as the basis for restoration of grazing on HMAs (or, for the USFS, WHTs).\*

We have been grateful for your efforts as a United States senator to protect American equines from the cruel and predatory horse slaughter industry, and we know you harbor compassion for all animals. Please consider issuing an executive order establishing a moratorium on roundups until the government agencies charged with the humane management of our wild horses and burros fix their programs and bring them into alignment with the original intent behind the mandates of the WFRHBA.

Thank you for considering our request, and for your service to the American people.

Sincerely yours,

Marty Irby
